Notes to the Condensed Interim Consolidated Financial Statements

For the three months ended March 31, 2022 and 2021

(Expressed in Canadian Dollars - Unaudited)

1. NATURE OF BUSINESS AND CONTINUING OPERATIONS

Straightup Resources Inc. (“the Company”) was incorporated on August 22, 2017 under the laws of British Columbia. The address of the Company’s corporate office is #207 - 5500 Warf Ave., Sechelt, British Columbia, Canada, V0N 3A0. The address of the Company’s registered and records office is 3426 West 33rd Avenue, Vancouver, BC, V6N 2H2. The Company’s common shares trade on the Canadian Securities Exchange under the symbol ST. On October 25, 2021, the Company was commenced trading on the OTCQB Exchange in the USA under the symbol STUPF.

The Company’s principal business activities include the acquisition and exploration of mineral property assets. As at March 31, 2022, the Company had not yet determined whether the Company’s mineral property assets contained ore reserves that are economically recoverable. The recoverability of amounts shown for exploration and evaluation assets is dependent upon the discovery of economically recoverable reserves, confirmation of the Company’s interest in the underlying mineral claims, the ability of the Company to obtain the necessary financing to complete the development of and the future profitable production from the property or realizing proceeds from its disposition. The outcome of these matters cannot be predicted at this time and the uncertainties cast significant doubt upon the Company’s ability to continue as a going concern.

The Company had an accumulated deficit of \$6,052,927 as at March 31, 2022, which has been funded by the issuance of equity. The Company’s ability to continue its operations and to realize its assets at their carrying values is dependent upon obtaining additional financing and generating revenues sufficient to cover its operating costs.

These condensed interim consolidated financial statements do not give effect to any adjustments which would be necessary should the Company not be able to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in these financial statements.

In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. At this point, the impact on the Company has been minimal. The Company continues to monitor the situation and is taking all necessary precautions in order to follow rules and best practices as set out by the federal and provincial governments.

2. SIGNIFICANT ACCOUNTING POLICIES

Statement of compliance

These condensed interim financial statements, including comparatives, have been prepared in accordance with International Financial Reporting Standards (“IFRS”) and International Accounting Standards (“IAS”) 34 “Interim Financial Reporting” as issued by the International Accounting Standards Board (“IASB”). Accordingly, certain disclosures included in the December 31, 2021 audited financial statements prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the IASB have been condensed or omitted and these unaudited condensed interim financial statements should be read in conjunction with the Company’s audited financial statements for the year ended December 31, 2021.

The accounting policies applied in these condensed interim financial statements are consistent with those applied and disclosed in the Company’s audited financial statements for the year ended December 31, 2021. The Company’s interim results are not necessarily indicative of its results for a full year.

These condensed interim financial statements were approved by the Board of Directors of the Company and authorized for issuance on May 30, 2022.

Notes to the Condensed Interim Consolidated Financial Statements

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Basis of presentation

The condensed interim consolidated financial statements have been prepared on the historical cost basis, with the exception of financial instruments which are measured at fair value, as explained in the accounting policies set out below. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

Basis of consolidation

These condensed interim consolidated financial statements include the accounts of the Company and its subsidiaries, from October 11, 2021 to the end of the reporting period, as follows:

	Incorporation	Percentage owned	
		March 31, 2022	December 31, 2021
1318463 BC Ltd. ("1318463 BC")	Canada	100%	100%
Companies owned by 1318463 BC:			
Golden Axe Metals Corp. ("Golden Axe")	USA	100%	100%

On October 11, 2021, the Company acquired 100% of the outstanding common shares of 1318463 BC.

All significant intercompany accounts and transactions between the Company and its subsidiaries have been eliminated upon consolidation.

Decommissioning, restoration and similar liabilities

An obligation to incur restoration, rehabilitation and environmental costs arises when environmental disturbance is caused by the exploration or development of a mineral property interest. Such costs arising from the decommissioning of plant and other site preparation work, discounted to their net present value, are provided for and capitalized at the start of each project to the carrying amount of the asset, along with a corresponding liability as soon as the obligation to incur such costs arises. The timing of the actual rehabilitation expenditure is dependent on a number of factors such as the life and nature of the asset, the operating license conditions and, when applicable, the environment in which the mine operates.

Discount rates using a pre-tax rate that reflects the time value of money are used to calculate the net present value. These costs are charged against profit or loss over the economic life of the related asset, through amortization using either the units-of-production or the straight-line method. The corresponding liability is progressively increased as the effect of discounting unwinds creating an expense recognized in profit or loss.

Decommissioning costs are also adjusted for changes in estimates. Those adjustments are accounted for as a change in the corresponding capitalized cost, except where a reduction in costs is greater than the unamortized capitalized cost of the related assets, in which case the capitalized cost is reduced to nil and the remaining adjustment is recognized in profit or loss.

The operations of the Company have been, and may in the future be, affected from time to time in varying degree by changes in environmental regulations, including those for site restoration costs. Both the likelihood of new regulations and their overall effect upon the Company are not predictable.

The Company has no material restoration, rehabilitation and environmental obligations as the disturbance to date is immaterial.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Accounting standards and amendments issued but not yet adopted

The Company has performed an assessment of new standards issued by the IASB that are not yet effective and has determined that any standards that have been issued would have no or very minimal impact on the Company's condensed interim consolidated financial statements.

3. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGMENTS

The preparation of these condensed interim consolidated financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of expenses during the reporting period. Actual outcomes could differ from these estimates. These financial statements include estimates which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the financial statements, and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods if the revision affects both current and future periods. These estimates are based on historical experience, current and future economic conditions and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the financial position reporting date, that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

Significant accounting estimates

- a) the measurement of deferred income tax assets and liabilities; and
- b) the inputs used in accounting for share-based payments.

Significant accounting judgments

- a) the determination of the effects of the COVID-19 pandemic
- b) the determination of categories of financial assets and financial liabilities;
- c) the evaluation of the Company's ability to continue as a going concern; and
- d) the assessment of indications of impairment of the exploration and evaluation assets and related determination of the net realizable value and write-down of the exploration and evaluation assets where applicable.

4. ACQUISITION ADVANCES

As at March 31, 2022, the Company advanced \$2,731,534 comprising \$1,967,050 and US\$603,000, as a non-interest bearing advance to Premier Silver Corp ("PSC"), as furtherance of a potential acquisition of 100% of the outstanding shares of PSC. On August 12, 2021, the Company entered into an Exclusivity Agreement with PSC granting the Company a right of exclusivity until November 10, 2021 whereby if PSC receives a written offer from an arm's length third party, the proposal must be first offered to the Company. On April 25, 2022, the Exclusivity Agreement was amended to extend the right of exclusivity to July 24, 2022. During the three months ended March 31, 2022, the Company wrote-off the advances to the statement of loss and comprehensive loss of \$717,050 (year ended December 31, 2021 - \$2,014,484).

On or before the fourth anniversary of the Listing	200,000	100,000	300,000
	600,000	155,000	600,000

The Hi Mars Optionors retained a 3% net smelter returns royalty which the Company has the right to purchase the first 1% of the royalty for \$750,000 and the remaining 2% for \$1,000,000 at any time prior to the commencement of commercial production. The Company was listed on the Canadian Stock Exchange on March 10, 2020.

Management decided not to proceed with the Hi Mars Project; as such, the option agreement was terminated and the project was written off during the year ended December 31, 2021.

Belanger Project

Pursuant to an option agreement dated June 1, 2020 with Bounty Gold Corp. ("Belanger Project Optionor"), the Company was granted an option to acquire a 100% undivided interest in certain unpatented mining claims comprising the RLX North, RLX South, and Belanger properties (collectively, the "Belanger Project") located in the District of Red Lake, Ontario, Canada.

In accordance with the option agreement, the Company can acquire the 100% interest in the project by: (i) making cash payments in the aggregate amount of \$150,000; and (ii) issuing common shares in the capital of the Company (the "Consideration Shares") having an aggregate cash value of \$300,000 to the Belanger Project Optionor as follows:

	100,000	200,000

Under the Digital Database Agreement, each warrant will be exercisable to purchase one common share of the Company for a period of three years from the date of issuance at an exercise price of \$0.26 per share. For the year ended December 31, 2020, the value of the warrants was determined to be \$20,000 which has been capitalized by the Company as an acquisition cost.

Ferdinand Gold Project

Pursuant to an option agreement dated March 19, 2021 with 1544230 Ontario Inc. and Gravel Ridge Resources Ltd. which was subsequently assigned to Solstice Gold Corp. (the "Ferdinand Gold Project Optionor"), the Company was granted an option to acquire a 100% undivided interest in 17 unpatented mining claims comprising 354 cells and encompassing 6,600 hectares, which are situated near Red Lake, Ontario (the "Ferdinand Gold Property").

In accordance with the agreement, the Company can acquire the 100% interest in the Ferdinand Gold Project in consideration of the following cash payments and share issuances:

	Number of Common Shares	Cash

8. RELATED PARTY BALANCES AND TRANSACTIONS

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Related parties may be individuals or corporate entities. A transaction is considered to be a related party transaction when there is a transfer of resources or obligations between related parties.

Key management includes directors and key officers of the Company, including the President, Chief Executive Officer (“CEO”) and Chief Financial Officer (“CFO”).

On April 21, 2021, the Company entered into a Financial Advisory Services Agreement (“FAS Agreement”) with Wawel Capital Corp. (“Wawel Capital”), a consulting firm which the Company’s CFO serves as a director, to provide financial advisory services to the Company, effective March 1, 2021, in consideration of \$240,000 per annum, payable quarterly with up to 50% of the quarterly payment eligible to be paid in common shares of the Company at a price per share equal to the discounted market price at the time of payment. Included in the agreement is a provision for a three month payout in the event of a termination.

On May 15, 2021 and subsequently amended on June 3, 2021, the Company entered into an employment agreement with the CEO of the Company whereby the CEO will be paid an annual salary of \$80,000. Included in the agreement is a provision for a three month payout in the event of a termination without notice. The employment agreement was amended on December 16, 2021, whereby the CEO resigned and maintained the position of the President of the Company.

The Company incurred the following key management personnel cost from related parties:

	For the three months ended	
	2022	March 31, 2021
	\$	\$
Management fees and salaries	116,000	10,000
Professional fees	-	34,629
Share-based compensation	290,645	-
	406,645	44,629

During the three months ended March 31, 2022, the Company issued 400,000 common shares to Wawel Capital valued at \$60,000 (year ended December 31, 2021 – 300,000 shares valued at \$60,000), pursuant to the FAS Agreement, which is included in management fees and salaries.

As at March 31, 2022, the Company owed \$71,953 to directors of Company and companies controlled by directors of the Company for expense reimbursements and unpaid management fees.

9. MANAGEMENT OF CAPITAL

The Company’s objectives when managing capital are to safeguard the Company’s ability to continue as a going concern in order to pursue the sourcing and exploration of its resource properties. The Company is not subject to any externally imposed capital restrictions.

The Company considers the aggregate of its share capital, reserves, and deficit as capital. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares or dispose of assets or adjust the amount of cash.

10. FINANCIAL INSTRUMENTS AND FINANCIAL RISK

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data.

The Company's financial instruments consist of cash, sales taxes receivable, and accounts payable. The fair value of sales taxes receivable and accounts payables approximates their carrying values. Cash is measured at fair value using level 1 inputs.

The Company is exposed to risks of varying degrees of significance from its use of financial instruments which could affect its ability to achieve its strategic objectives for growth and stakeholder returns. The principal risks to which the Company is exposed, and the actions taken to manage them, are described below. Management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

The risks associated with the Company's financial instruments and the policies on how to mitigate these risks are set out below.

a) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The Company's corporate office is based in Canada and all of the Company's assets and expenses are denominated in Canadian dollars. The Company does not have any significant foreign currency denominated monetary liabilities.

b) Interest rate risk

The Company is exposed to interest rate risk on the variable rate of interest earned on bank deposits. The fair value interest rate risk on bank deposits is insignificant as the deposits are short-term.

The Company has not entered into any derivative instruments to manage interest rate fluctuations.

c) Credit risk

Credit risk is the risk of loss associated with the counterparty's inability to fulfill its payment obligations. The Company's cash is held in a large Canadian financial institution. The Company maintains certain cash deposits, which from time to time may exceed federally insured limits. The Company has not experienced any significant credit losses on its cash deposits and believes it is not exposed to any significant credit risk on these deposits. The Company's sales tax receivable is due from the Government of Canada; therefore, the credit risk exposure is low.
